

Queen Elizabeth's Grammar, Alford

A Selective Academy

Our School Vision

As a school, we want our students to think big and dream big, with our curriculum supporting students to build the best version of themselves.

We want school to be a happy and enjoyable experience that best develops students' intellectual firepower and curiosity of thought.

We want our students to learn in a healthy and caring learning environment that supports the highest levels of academic achievement, whatever this may look like for them as an individual.

We want our students to have their eyes open to the opportunities the world presents, equipping them with the versatility and resilience necessary for a changing global landscape.
